CINDY HUNTER MORGAN

Using Art to Make Art: A Week of Workshops

Five days in which we explore Short Forms (poetry and compressed/flash nonfiction), Erasures, Carving and Printmaking, and Book Arts with Cindy Hunter Morgan

Cindy's workshops are put in sequence so the participant can use their creations as content for the accordion book they will in the last workshop. All materials are included. Register online at www.hesselschoolhouse.net/calendar

The Art of Erasure

Monday, June 26 ~ 1:00 - 3:00 PM

Poetry depends on compression and distillation, and it succeeds when it makes (and shares) discoveries and surprises. These surprises often come by way of metaphor. How do we begin to think like a poet? In this workshop, we'll look to a fusion of visual art and poetry to begin to think – and see – like poets. Using found pages of text (supplied), participants will create their own erasures and leave with their own visual art – and their own poems. - \$50

History & Word Play: Mixing the Previously Unmixed to Cook New Poems

Tuesday, June 27 ~ 1:00 - 3:00 PM

We know about the magic of salt, fat, acid, and heat in the kitchen. In this workshop, participants will explore two magic elements in poetry – history and word play – and experiment with them to write their own poems. - \$35

The Art of the Letter

Wednesday, June 28 ~ 1:00 - 3:00 PM

In this workshop we'll read examples of the epistle – poems written as letters to others – and then write our own letter poems or letter prose poems. The epistle allows a writer to engage in something that feels like a private exchange. The result can be delightful for both writer and reader. Epistolary poems feel intimate. When we read them we feel like we're eavesdropping. - \$35

Carving & Block Printing

Thursday, June 29 ~ 10:00 AM - Noon

Athletes cross train. Artists and writers should too! In this workshop, participants will carve their own stamps for block printing. Some participants might choose to create something related to or in conversation with one of our previous projects, but that's not necessary. - \$50

Compression & Intensity: Short Story Prose

Thursday, June 29 ~ 1:00 - 3:00 PM

We'll read some powerful and delightful examples of very short prose, and we'll think about what a vessel the size of a paragraph can hold. Maybe you'll create a map or a list. Maybe you'll write a tiny essay. - \$35

Make Your Own Accordion Book

Friday, June 30 ~ 1:00 - 3:00 PM

In this workshop, participants will make their own books. We'll cover book board with Italian book cloth and hand fold our paper to form the pages of our books. Participants will leave their own completed books and can choose whether to leave these books blank or fill them with content from one or several of our projects. - \$50

BEATE BAUM

"Whodunnit?"

Isn't the only question

A workshop for aspiring crime fiction-writers

September 13 & 14

9:00 AM - 5:00 PM

In the beginning, there was the mystery. Both Edgar Allen Poe's "M. Dupin" and Conan Doyle's "Sherlock Holmes" had the ability to see connections that others missed and thus solve criminal cases. But even in these first detective stories, other things were already important: Poe devotedly described the city of Paris (which he never knew personally), and Doyle developed the character Sherlock Holmes in such a multifaceted way that it is still taken up by authors today (Beate Baum being one of them).

Crime fiction is one of the world's most popular genres. This two-day session of intense instruction from critically acclaimed crime fiction author Beate Baum will teach aspiring writers about the necessity and limits of plotting, the approach to the right setting and interesting topics, how to develop characters that work, and receive critical feedback on their writing. Lunch is included. - \$175

Saturday, June 3 During Aldo Leopold Festival

Choose an hour or so between 10:30 AM & 4:00 PM

For bird lovers of all ages. For many years, the late Harry Harris built countless numbers of houses to save the declining population of tree swallows, posting them along the marshes of Les Cheneaux and shipping hundreds every year to the National Audubon Society.

\$15 for an authentic Harry Harris-designed wooden tree swallow house (paint included). GreenBird weatherproof-paper birdhouses are free for children to decorate and hang outdoors. Families encouraged.

The bracelets are to be worn until they fall off naturally, at which point the wish will be granted.

Seed beads were first introduced to American Indians by French explorers in the early 17th Century while trading, and quickly became popular for making necklaces and decorating their leather clothing and moccasins, and in the neck gear for their horses.

Pony beads got their name when Pony Express began delivering them. They are the largest seed beads, so they are really quick and easy for young fingers to work with.

8 Local Preserves and Parks to Explore

1. Birge/Mertaugh/Nye Nature Preserves

This 528-acre preserve features beautiful wildflowers, excellent migratory bird habitat, and 1.5 miles of Lake Huron shore. A 2.2 mile trail follows a historic road looping through the cedar forest and wetlands. A separate, short (.1 mile) trail takes visitors to scenic Loon Lake.

2. Clark Township's Hessel Beach

Since 1994 this township park has offered free parking, a place to carry kayaks and canoes to the water, a swimming beach, and public restrooms. An excellent access point for paddlers who are headed out to LTC's Marquette Island preserves.

3. Marquette Island Nature Preserves

More than 1,900 acres and five miles of Lake Huron shoreline are protected with the Seiberling Stewart, Aldo Leopold, and Sheppard-Hardy preserves on this island within Les Cheneaux. (Leopold is 1,683 acres alone.) A public park in Hessel provides one access point for paddlers (See #2 Hessel Beach)

4. William B. Derby Nature Preserve

This 200-acre preserve includes a nearly three-mile, figure eight, trail loop available through all seasons. The trail meanders through natural, moss-covered rock gardens, evergreen forest, and along the rugged Lake Huron shore. Because of its easy access to town, this preserve is becoming a local favorite. Trails are generally compacted for snowshoeing in the winter.

5. The Snows Heritage Park

16-acre recreation area behind the Clark Township Hall has two baseball fields, pavillion with picnic tables and grill, tennis courts, playground, and walking path.

6. John Arthur Woollam Preserve

The 185-acre preserve consists of 4,300 feet of stunning rocky shoreline with huge boulders and coastal wetlands, and a coniferous forest grading into northern hardwoods. The preserve offers significant shoreline for migratory and breeding birds, and habitat for plant species such as Houghton's goldenrod.

7. Carl A. Gerstacker Nature Preserve

Enjoy five miles of beautiful shoreline across four bays on Lake Huron, two small islands, Big and Little Trout Lakes, and parts of two creeks. Visitors might also see a variety of animals including the loon, pileated woodpecker, osprey, wolf, and several species of neotropical migratory songbirds such as the American redstart and magnolia warbler.

8. De Tour Peninsula Nature Preserve

More than three miles of northern Lake Huron shoreline and 145 acres on Point DeTour comprise this gorgeous Great Lakes preserve. From the parking area, a two-track trail leads through middle of preserve. You have to pick your own way to the rugged shoreline from trail.

When visiting these areas, keep in mind that you are a temporary visitor to the homes of many plants and animals. Please tread lightly.

DO YOU HAVE A REVOLUTIONARY PATRIOT IN YOUR FAMILY TREE?

Consider membership in the National Society Daughters of the American Revolution (DAR), a volunteer women's service organization that honors and preserves the legacy of our Patriot ancestors. Nearly 250 years ago, American Patriots fought and sacrificed for the freedoms we enjoy today.

As a member of the DAR, you can continue this legacy by actively promoting patriotism, preserving American history and securing America's future through better education for children.

Preserving the
American Spirit
www.dar.org
(202) 879-3224

Who is eligible for membership?

Any woman 18 years or older, regardless of race, religion or ethnic background, who can prove lineal descent from a Patriot of the American Revolution is eligible for membership. DAR volunteers are willing to provide guidance and assistance with your first step into the world of genealogy.

How is Patriot defined?

DAR recognizes as Patriots not only soldiers, but also anyone who contributed to the cause of American freedom. To find out if your ancestor is recognized by the DAR as a Revolutionary Patriot, use the request form available online. Visit www.dar.org and click on "Membership."

How many members does the National Society have?

DAR has nearly 190,000 members in nearly 3,000 chapters worldwide, including chapters in 14 foreign countries and one territory. Since its founding in 1890, DAR has admitted more than 1 million members.

How can I find out more?

Go to www.dar.org and click on "Membership." There you'll find helpful instructions, advice on finding your lineage and a Prospective Member Information Request Form. Or call (202) 879-3224 for more information on joining this vital, service-minded organization.
